---> Comment Text :

1 Please, please do not send the waste through our community! I would like you to keep the waste on site until there is a proven, 100% way of storing or disposing of this horrible waste.

Please do not expose millions of innocent people to this threat, as it moves through our neighborhoods.

2 And please stop creating this waste. We have no right to burden future generations with our deadly leftovers. I feel very strongly that Yucca Mountain is unsuitable, there is a possibility that the waste will have to be moved again in my lifetime. And it is very unlikely that the waste will remain stable there until it is no longer a threat to the citizens of the future.

4 Please stop the poison. Please encourage conservation and research into more people friendly (rather than people deadly) energy sources.

5 My family's health is not an acceptable risk. Do not bring this deadly mess through our communities, and don't bail out the powerful utilities by dumping it at Yucca Mountain.

The future generations are depending on you to make the choice to protect them. They will thank you for stopping the production of waste, they will thank you for finding a way to safely store the radioactive poison we have already created huge amounts of in our greedy thirst for energy.

010085

Thank yo for your consideration,

Debra L. Wilson
